pre-health sciences pathway to advanced diplomas and degrees

Missing an admission requirement or need to improve your grades for prerequisite courses to gain admission into a limited enrolment Health Sciences, Nursing, or Emergency Services program? Or are you not sure which health care career you want to pursue? This program will enhance your knowledge and skills in English, math, and science. You will also choose electives to ensure you have all of the program admission requirements to apply to your program of choice.

pre-trades/technology

Not sure which trades or technology career you want to pursue, or missing a prerequisite? This program is a great first step to explore career and program options and to learn the basic fundamentals of work safety, measuring instruments, and hand/power tools. Class projects, such as small engine repair, combined with practical courses in technology, math, English, and computers provide a strong foundation for your college program of choice. You will also have the opportunity to add a recognized industry credential from IHSA to your portfolio.

general arts and science certificate

In this completely customizable program, you'll work with one of our educational planners to choose courses and build your timetable based on your academic and personal goals. You'll have the flexibility to explore a variety of career options or to focus your studies in a particular area to prepare for other college programs. Take courses for one semester and bridge into another program, or complete two semesters and earn a certificate in general arts and science.

general arts and science diploma

This two-year diploma program will allow you to explore a number of different areas within liberal arts (including psychology, sociology, anthropology, Indigenous studies, and more) in order to prepare for further studies at the college or university level. You'll also be able to choose several elective courses to explore other areas of interest.

general arts and science - English for academic purposes

Improve your English speaking, listening, reading, and writing skills to prepare for a college program. This program consists of two levels that combine classroom activities with academic and technology skill development along with off-campus excursions to immerse you in the English language and Canadian culture.

upgrading/academic and career entrance certificate

This free program allows you to upgrade your skills at your own pace to enhance employability skills, gain admission requirements for college programs, and/or earn your Academic and Career Entrance Certificate (ACE), which is widely recognized as an equivalent to a Grade 12 Ontario secondary school diploma.

Contact us directly to apply to this program:
Sudbury – (705) 566-8101, extension 7712
Espanola – (705) 869-4113
Little Current – (705) 368-3194

general arts and science - Indigenous specialization

Prepare for postsecondary studies or the workplace through an Indigenous lens. Through a holistic cultural and land-based approach, you will develop English and math skills; learn Indigenous languages; focus on your own culture, heritage, and well-being; and earn credits towards other postsecondary diploma programs. If you are unsure of what career you would like to pursue, this program will help you make those life-changing decisions.

business and information technology

 [peachy.keaney](#)

I can't believe I just finished my final exam of my first year of Business Admin at @cambriancollege 🎉 8 months just flew right by! Congrats to everyone on finishing another crazy year!! 📚💛

#studyingstars #cambriancollege #businessadmin #futureentrepreneur

business fundamentals

Take that first step towards a career in business and get a first-hand look at accounting, human resources, finance, and marketing. Study on campus or online for one year to earn a certificate.

business

Our business program will expose you to different areas of business and entrepreneurship. You will have the option of launching your career or continuing into the third year of Cambrian's Business – Administration program when you graduate.

business – administration

Equip yourself with the necessary business skills that you need to play an important role in any small- to large-sized business, as well as entrepreneurial ventures. This program will allow you to build connections with industry through a 7- to 8-week placement.

business – accounting

This two-year diploma will train you on all the necessary accounting tools and techniques to land an entry-level accounting job. The program will also set you up with credits that can be used towards a college or university degree.

business administration – accounting

This three-year advanced diploma program blends accounting with other areas of business and economics and comes with a 7- to 8-week placement in the field, giving you the perspective and networking opportunities to help kick-start your career. The program will also set you up with credits that can be used towards a college or university degree.

computer systems technician

Do you have a passion for exploring the inner workings of digital technology and enjoy learning new computer applications? Pursue a career in networking by gaining the skills to troubleshoot, diagnose, and repair digital hardware and software. Our program offers 400 hours of hands-on lab training over two years, making you job-ready for technician, administrator, and customer support roles within IT teams.

computer systems technology

Our three-year program gives you that extra level of expertise in supporting digital networks for all types and sizes of organizations. You will follow the Computer Systems Technician courses for four semesters, then in your third year, you'll gain knowledge and experience in cybersecurity, firewalls, and project management. Throughout the program, you'll complete 700 hours of hands-on training, along with a six-week placement, and you can also apply to work part-time in our lab as a mentor to other students.

computer programming – internet of things

From smart home technology like Amazon's Alexa to wearable technology like smartwatches and Bluetooth sunglasses, our digital and physical worlds are becoming more connected than ever before. If you're an inventor who is internet-savvy and has a passion for using your computer programming skills to develop the latest gadgets, then this two-year program – which blends elements of mechatronics, data analytics, and networking – is perfect for you.

community services

child and youth care

Gain the skills to work with children and adolescents experiencing personal, social, and relationship issues. Our program features a condensed delivery format, allowing you to earn a three-year diploma in only two years, with the option to gain additional certificates. Cambrian is the first of six colleges in Canada to receive national accreditation from the Child and Youth Care Educational Accreditation Board (CYCEAB).

developmental services worker

Imagine a career where you can counsel, assist, and support people with special needs as their care provider. With the largest number of block field placements of any college in Ontario, we ensure you have many opportunities to put your classroom learning into action. You can also earn certification in Non-violent Crisis Intervention.

Want to study from home? No problem! Our program is delivered in Hyflex, meaning that you can join us in person or 100% virtually. You can even do your placements in your home community or inquire about our prior learning fast-track option if you have been working in this field already.

early childhood education

alternate delivery option available

Are you passionate about working with young children? Be part of a profession that cares for and educates young children through interactive, play-based experiences that embrace children's natural curiosity so their learning journey begins on the right foot. Our program features a simulation childcare lab and 600 placement hours in the community to give you the right combination of in-class learning and hands-on training in real-world settings.

Already working in the field and want to become a Registered Early Childhood Educator? Choose the alternate delivery option to continue to work while you earn your diploma.

social service worker and Indigenous specialization

Follow a career path that allows you to support vulnerable or at-risk individuals, families, and groups of all ages in dealing with personal and social issues. Through a combination of theoretical learning and fieldwork, you will develop the skills to lead counselling sessions, manage case work, conduct interventions, and recommend actions for positive change.

Choose the Indigenous Specialization option to focus your studies on social service delivery that is culturally aware and respectful of the realities facing Indigenous peoples.

 [aliciagraceofficial](#)

Exam week is over and now a new adventure is about to start with placement next week.

So excited to be able to start working with kids and get hands-on experience of learning what it's like to become an Early Childhood Educator.

media communications, music, art, and design

animation

Under the guidance of industry professionals, you'll build the skills to bring animated stories to life for TV, film, and the digital world. You will develop a portfolio of 2D and 3D work, storyboards, characters, and short films, which will be shared within the local arts community and with industry representatives from the Greater Toronto Area. Our program is based on Sheridan College's renowned curriculum.

art and design fundamentals and design and visual arts

Use your creative talents to experiment with various styles and diverse media to develop your own personalized portfolio of work. Build foundational skills in the 8-month Fundamentals program, or take a two-year journey in Design and Visual Arts to hone your skills in one of four media specializations. You'll work with local artists and have your creations displayed at installations and galleries, while you learn first-hand about the business of art.

game design

If you're a creative force who is passionate about gaming, our two-year diploma program is your jumping off point to a career developing video games, augmented reality, and virtual reality scenarios. This program covers all creative aspects of game design and will allow you to develop a portfolio of 2D and 3D work through projects and by creating a game concept in your final semester. Turn your love for dreaming up complex puzzles, intense boss battles, immersive stories, stunning environments, and quirky characters into a rewarding and fast-paced career.

graphic design

Working with digital and print media under the keen eye of award-winning professionals in class and during a field placement, you will be on your way to becoming a professional graphic designer with the ability to use colour, text, and images to produce creative visual communications. You will also have the opportunity to showcase your work on campus and attend the DesignThinkers Conference in Toronto.

 **anilathmaj_kurudula**

Missing those short practice sessions
in the cafeteria.

[#cambriancollege](#) [#cambrianinternational](#)

media communications

Through courses in photography, web design, videography, and strategic writing, you'll be equipped with the skills and knowledge to be an effective communicator and take your storytelling to the next level, whether your platform for communicating is a blog, YouTube, a podcast, social media, or another medium.

music – performance

In our Music – Performance program you'll receive weekly one-on-one training on a major and minor instrument and will learn how to teach and manage yourself and other musicians. Take that training from studio to stage with frequent performance opportunities both as a soloist and in our many ensembles and bands.

engineering technology, environmental studies, and occupational safety

chemical engineering technology

Imagine a career as a chemical technologist that will have you extracting valuable metals from rock, operating chemical processes in nuclear plants, operating water/wastewater treatment plants, creating the next generation of pharmaceuticals, or developing new and improved fuels. Hands-on learning in our labs combined with paid co-ops set you up for exciting careers in all of these fields and more.

civil engineering technician or technology

Have a hand in the design, construction, and maintenance of the infrastructure we all rely on – roads, bridges, municipal services, and more. Our nationally-accredited program will arm you with leading-edge surveying practices, computer-based design and drawing skills, a solid theoretical background in key civil engineering applications, as well as an understanding of the impact projects can have on the natural environment.

electrical engineering technician or technology

You will gain theoretical and hands-on skills in the design, installation, and maintenance of electrical systems. You will also apply electrical safety code and print reading knowledge, and computer-based design and drawing skills to commercial and industrial installations. In addition, you will be introduced to Programmable Logic Controllers (PLCs), power electronics, and instrumentation fundamentals.

Our electrical programs are modelled after the in-school portions of the Industrial Electrical Apprenticeship, allowing you to get a jump on your apprenticeship if you choose that pathway.

electromechanical engineering (mechatronics) technician or technology

Modern technology has changed the way we live our lives. We're in a constant state of producing things that are increasingly more automated, high-tech, and intelligent. In our Mechatronics program, you'll learn how to create and maintain manufacturing systems and equipment that have a combination of mechanical and electrical components. From door locks that sync with our smartphones to tiny robots that clean up environmental disasters, mechatronics is a fast growing field of engineering that impacts every industry.

environmental technician

Turn your passion for environmental protection and climate change issues into a rewarding career. Learn to identify, measure, and record environmental elements within the air, water, soil, and living organisms to evaluate and monitor the health of the natural environment.

mining engineering technician or technology

Mining is a high-tech industry in which mining technicians and technologists play a key role in mine development and day-to-day operations. Our programs prepare you to tackle projects in surveying, computer-based design and drawing skills, mine design, environmental studies, geological fieldwork, ventilation, and ground control through industry-experienced faculty and field experiences, including a 10-day mining camp.

mechanical engineering technician or technology

As one of the broadest engineering disciplines, the industries you can work in as a Mechanical Engineering Technician or Technologist are limitless. This program combines theoretical design skills with practical, hands-on training. By utilizing software like AutoCAD and SolidWorks, you will be able to design and troubleshoot parts and equipment and then build them in our labs, which are equipped with advanced manufacturing equipment. You will push the boundaries of your creativity in design and project management, while using various manufacturing techniques like 3D printing and CNC machining.

power engineering techniques, technician, or technology

Operation and maintenance of industrial plants that use boiler and refrigeration systems, including power generation plants, are the domain of the certified power operating engineer. This profession is highly-regulated, and at Cambrian you have the opportunity to achieve the 2nd Class Operating Engineer level of training in our very own 2nd Class power plant training facility.

workplace safety and prevention technician

Our two-year program will give you an understanding of current occupational health and safety legislation and the skills to identify, assess, and manage risk in a variety of workplaces. As a graduate, you'll be qualified to write the Canadian Registered Safety Technician examination to earn your designation and to apply to the Board of Canadian Registered Safety Professionals.

health sciences and nursing

dental hygiene

If you're interested in interacting one-on-one with patients, a career in dental hygiene will give you the opportunity to perform a wide range of dental care procedures and promote dental health care in your community. Our program offers a combination of in-class learning and practical work experience in Cambrian's own dental clinic.

medical laboratory technology

Our three-year program will prepare you with the theoretical knowledge, technical ability, and analytical skills to perform and interpret testing using sophisticated analyzers that will assist in the diagnosis and treatment of patients in a health care setting.

medical radiation technology

Become an essential part of a health care team by mastering the art and science of capturing and analyzing the inner structure of the human body. You will learn how to produce quality x-ray images through experiences in the classroom, the labs, and during three hospital placements.

paramedic

Be the first responder in life-or-death situations. With hands-on classroom learning and placements in hospitals and ambulance services, you'll learn how to care for sick and injured people of all ages on-the-scene and as they are being transported to hospital. The physical fitness components of the program will also ensure your fitness level meets professional standards when you graduate.

 [meg_linklater](#)

Started my first IV this week! Thank god my IV buddy had great veins! 💙

fitness and health promotion

The demand for qualified leaders in the fields of physical education, health promotion, nutrition, coaching, and mentorship is growing! Help clients engage in an active lifestyle as they try to achieve their fitness and health goals. This program will set you up to gain additional fitness certifications in the field and is the only Fitness and Health Promotion program in Ontario with an outdoor recreation course.

occupational therapist assistant and physiotherapist assistant

Gain the skills to help clients follow treatment plans to improve physical limitations they are facing due to injury, illness, or disability-related issues so they can excel in their personal and professional lives. Upon graduation, you'll be prepared to pass industry exams to safely and effectively practice in the field.

massage therapy

Massage therapists are vital members of health care teams. Whether you wish to work in a health care setting, spa, or pursue your own practice, through extensive hands-on learning you'll be prepared to provide targeted treatments and general relaxation to a diverse clientele. Graduates will be able to apply to write the College of Massage Therapists of Ontario certification exams to become a registered professional.

personal support worker

In just six months, you will be prepared to help clients with health and personal care needs, whether at home or in hospitals, long-term care facilities, or other community settings.

practical nursing

A combination of clinical placements and in-class learning, including hands-on training in our high-tech nursing lab, sets you up with the skills to provide quality, compassionate care and support to patients in a variety of settings. As a registered practical nurse (RPN), you will treat and monitor patients and help to make recommendations for their care.

bachelor of science in nursing

As a registered nurse (RN), you will be a graduate of our Bachelor of Science in Nursing degree program and become part of frontline health care teams with a high level of responsibility for patient care. You'll also have the option to pursue roles in specialized nursing care units and management.

law, justice, and emergency services

 [cambriancollege](#)

It's Monday - don't forget to be awesome! 🚒🔥📸 @alex.coey

[#mondaymotivation](#) [#firefightertraining](#)
[#cambriancollege](#)

community and justice services

Prepare for a diverse and exciting career in social and criminal justice in corrections, intervention, and rehabilitation. This program opens the doors for career options in correctional institutions, open and secure custody facilities, group homes, community corrections, advocacy, non-government agencies, and even law enforcement and border security. Our program takes you beyond the textbook into applied learning in our Justice Simulation Lab – complete with cell blocks, tours of correctional facilities, and an immersive 350-hour field placement.

corporate safety and security and protection, security, and investigation

Security and surveillance professionals keep spaces and organizations safe – entertainment venues, industrial operations, and retail outlets, to name a few. In our Corporate Safety and Security program, you'll learn to conduct effective patrols, manage movement of people and vehicles, use electronic security equipment, and conduct investigations.

To dive deeper into criminology, sociology, psychology, and the criminal justice system, take the two-year Protection, Security, and Investigation program, and you'll be on track to wider career options in security guard or private investigation firms, police services, the Canadian Forces, provincial ministries, and more.

police foundations

Prepare for a distinguished career in law enforcement. With a combination of in-class assignments, police force training, guest speakers, scenario training, fitness components, and community work, our faculty of former and current law enforcement officers will ensure you are ready to pursue a career in any level of local, provincial, or federal law enforcement.

pre-service firefighter education and training

Take your first step toward a career that will turn you into a superhero in your community. This three-semester program includes intense testing in simulated and controlled live fire scenarios. Graduates are eligible to write the OFM Provincial Firefighter test, and upon successful completion of this test can apply for standing under NFPA 1001 as Firefighter Level I and II from the ProBoard.

skilled trades training

carpentry and renovation techniques

Whether you want to tackle new buildings or renovation projects, in just 28 weeks you'll be ready for entry-level positions in the construction industry. You'll develop practical construction skills through hands-on activities while also gaining a basic understanding of how to plan, estimate, manage, and deliver a typical carpentry project.

heating, ventilation, and air conditioning technician

Become certified to work on residential and industrial heating, cooling, and ventilation systems after getting hands-on experience in our state-of-the-art lab. Our program is accredited by the Technical Standards and Safety Authority (TSSA) and prepares you to write the Level 2 and 3 Natural Gas Technician and Oil Burner Certification exams.

motive power technician – truck and coach

Want to work keeping big rigs and buses moving down the highway? Our Truck and Coach program will give you specialized skills in servicing and maintaining buses and large transport trailers. Complete this two-year program to start your career or come back for just two more semesters to earn a second diploma as a Heavy Equipment Technician... earning you two diplomas in three years!

heavy equipment technician

Work on scoop trams and other equipment in our heavy equipment shop to gain extensive knowledge and skills to service a wide range of industrial mobile equipment for the forestry, mining, and construction sectors. Stay for one extra year to gain a Motive Power Technician – Truck and Coach diploma.

industrial mechanical millwright technician

Become a generalist in the troubleshooting and repair of all types of industrial equipment. In our millwright shop, you'll develop a broad set of electrical, mechanical, and instrumentation skills you can put to use on complex industrial mechanical machinery.

mechanical technician – manufacturing and machining

Working on modern, industry-standard equipment in our shops, you'll develop specialized problem-solving and hands-on skills to produce parts for products and machines using a variety of automated machining tools.

 **wooddahood**

Just hanging out #powerlines #firstyear

motive power technician – service and management (automotive)

Be the go-to person in the automotive shop. You will learn to work on a wide range of gas-powered, diesel-powered, and hybrid vehicles, spending half of your time perfecting your hands-on skills in our working garage. Along the way, you will also earn certificates such as your Ozone Depletion Prevention Card.

powerline technician

Get real-world experience installing and maintaining power grid systems year-round in our outdoor powerline field located on campus. Our partnership with the Infrastructure Health and Safety Association also allows you to take required industry certificate courses prior to beginning your co-op.

welding and fabrication technician

Working in the College's welding lab, you will take metal fabrication projects from the engineering drawing stage through cutting and forming processes to the welding and inspection phase. You will also have unique opportunities to put your welding and fabrication skills into practice by working on real community and applied research projects.

program essentials

Here is an overview of all our full-time programs, including how long you'll study, what you need to get in, and what you'll walk away with.

Admission to all programs requires an Ontario Secondary School Diploma (30 credits), or equivalent, or mature student status unless indicated otherwise. **For full admission requirement details, please visit cambriancollege.ca/programs.**

general studies

**setting you up
with a career that
pays the bills...**

**and supports your
foodie snaps...**

**that's the
Cambrian
experience.**

take your education beyond the classroom

Cambrian's programs blend academic learning, hands-on training, and community involvement opportunities to help you achieve your ultimate goal – your dream career.

Practical work experience in every program

No matter which program you pick, you'll have the opportunity to apply your knowledge to real-world scenarios within and outside of the classroom through work-integrated learning. Whether it be a capstone project, co-op, practicum, preceptorship component, or placement, you'll benefit from a practical, job-related experience before you graduate.

Impress industry through applied research projects

Get paid work experience under the mentorship of faculty and industry experts by being part of applied research projects.

Depending on your program, you may have the opportunity to be part of a team that works to find and test solutions for problems that industry partners are struggling to solve. You may even secure a job offer before the project is complete!

cambriancollege.ca/rd

your participation in out-of-classroom activities will help build your **co-curricular record**, a formal document that captures your learning through clubs, athletics, community engagement activities, and more!

cambriancollege.ca/ccr

we'll make sure you're career-ready

As a student and graduate, our Career Centre is your hub for all things related to your career success – on-the-job training required to complete your program, job opportunities, and more.

Your ultimate resource for:

- Finding on- and off-campus jobs
- Co-op and placement support
- Résumé and cover letter prep
- Career exploration
- Mock interviews

Get on-campus paid work experience

Cambrian employs students year-round, which means opportunities for you to gain hands-on experience while paying for College. You can also browse and apply for jobs online through the Centre's myCareer portal (which also features off-campus job listings).

Land a co-op or field placement

Our staff keep connected with employers to help you find co-op and placement opportunities.

apply for international placements.

International placements will add a global perspective to your course work and will help you prepare for job opportunities around the world.

Launch your career

As a graduate, you will always have access to Career Centre services. So whether you need support to get that first full-time job, or need assistance years down the line, our doors will be open to you.

Meet employers on campus

We host northern Ontario's largest career and job fair each year on campus, giving you the chance to meet hundreds of employers in-person from across the north.

learning never stops –

continue your studies after graduation

When you graduate, consider these options to specialize your skills and/or add a degree to your résumé.

Pursue a related diploma or certificate

Cross-train in Cambrian programs that offer common courses in related fields of study, and you may be able to fast-track your way through a related diploma or certificate.

add a degree.

Take advantage of one of our 750+ pathways to earn a complementary degree in as little as one year. All of Cambrian's diploma and advanced diploma programs have at least one degree pathway.

cambriancollege.ca/pathways

ONTransfer.ca

many of our graduate certificate programs start at multiple times during the year and offer part-time and online learning options, giving you the flexibility to work while you specialize your skills.

graduate certificates

Earn a graduate certificate in as little as 8-12 months to branch out into something new or gain advanced expertise and experience in your field.

**friendly faces
everywhere...**

**that's the
cambrian
experience.**

cambrion is located in sudbury, ontario...

(aka the nickel city, aka the city of lakes)

It's closer than you think!

Sudbury is easily accessible by car, bus, and plane – and we'd safely bet Cambrian is closer than you think, no matter where your hometown is located.

drive times in ontario

City	Hours	Kilometres
North Bay	1.5	129
Parry Sound	1.5	165
New Liskeard	2.5	225
Timmins	3	296
Barrie	3	296
Sault Ste. Marie	3	303
Toronto	4	390
Kitchener-Waterloo	4.5	466
Ottawa	5	484
London	5	544
Kingston	6	628
Windsor	7	716
Thunder Bay	13	1000

a city fit for both the urban enthusiast and the outdoor adventurer

As a student, you will quickly get to know the best places to hang out with your friends, work part-time, shop for bargains, and enjoy the outdoors.

Sudbury is northern Ontario's centre for:

- Shopping
- Entertainment and nightlife
- Comedy, film, music, and food festivals
- Culinary experiences – everything from Canadian home cooking to Asian restaurants to European bakeries
- Arts and culture
- Education and health services

Four seasons of outdoor fun

- 300 lakes for beaches, boating, skating, and ice fishing
- 35 trails and conservation areas for hiking, cross-country skiing, snowshoeing, and snowmobiling
- Skiing and snowboarding at Adanac Ski Hill
- Golf and disc golf courses
- 4 provincial parks in the area for camping and day trips

the glenn crombie centre for accessibility and wellness

For more than 20 years, Cambrian has been a leader in accessibility, wellness, and counselling services.

If you've ever been diagnosed with a disability or experienced learning difficulties, our caring experts in The Glenn Crombie Centre for Accessibility and Wellness can help you with:

- Accommodations
- Assessments
- Assistive technology
- Learning supports
- Short-term counselling
- Wellness peer programs and activities
- Referrals (as required)

The Centre also provides specialized orientation programs and student workshops to help you succeed.

Plus the Centre is equipped with fully-accessible spaces including:

- Washrooms
- Student lounge
- Personal care rooms
- Accommodated testing rooms
- Kitchen facilities
- Computer lab
